WE OFFER: Financial support for individuals or families when their incomes and assets are not sufficient for necessary daily expenses. In adult social work, you can receive financial assistance in the form of income support for e.g. basic living expenses, housing and health care expenses, household electricity, home insurance, childcare fees, acquisition of necessary ID documents and other similar expenses. KST offers maternity support for expectant mothers in the form of a maternity package or a tax-free lump sum of 224 euros, the opportunity to apply for reduced/waived client fees and various financial compensations to families with children such as preventive child protection or child protection initiatives. You can also apply for financial support according to the Disability Services Act, such as e.g. procurement of a car and necessary alterations, alterations to the home, appliances and machines needed to cope with the daily functions, extra costs for clothing and special diets due to your disability or illness.

HOW? Visit the KST website for further information and contact us by phone for advice and appointments. You can submit your application by using our forms or e-service.

PLEASE NOTE! Home care support for parents who care for their children at home is applied for in your home municipality. Cancellation/reduction of municipal fees, e.g. childcare fees, is also applied for at the municipality.
